Dear Sol:

I have your note re Treffer's project. I don't envy you the assignment of sitting in judgment on your colleagues' work and capabilities.

Unfortunately, I am not well informed about Treffer's work. We had some correspondence nearly a year ago, but I received very few details from him. If I say that I simply have no opinion on the matter, I mean just that and please do not construe it negatively in any way.

Sorry not to be more helpful,

Sincerely,

Joshua Lederberg
